# “Rich Valley — Our Alma Mater”

When in our dreaming  
Times like these appear again;  
Then we will wander,  
Through these halls again!  
Dear Rich Valley High School—  
Hopes and fears we've shed with thee,  
In our hearts you'll linger,  
In our prayers you'll be.

We, now as Seniors,  
Wish to thank the faculty;  
For all the guidance,  
We have come to see.  
May we use this wisely,  
As we go our separate ways  
May our lives be guided  
By our high school days.

Refrain:  
R. V. Our Alma Mater!  
Now we toast this song to thee!  
R. V. Our Alma Mater!  
In our prayers you'll be.

# FOREWORD . . .

"The prosperity of a country depends, not on the abundance of its revenues, nor on the strength of its fortifications, nor on the beauty of its public buildings; but it consists in the number of cultivated citizens, in its men of education, enlightenment and character."

"Where is the heart that doth not keep,  
Within its inmost core,  
Some fond remembrance hidden deep,  
Of days there are no more?"

## “Honor Lies in Honest Toil”

Rich Valley High School runs on the same scale as a complicated machine. If the mechanism is to function properly, each little part must do its job. Likewise, each “part” of RVHS must function if the school is to prosper. Teachers and students must work together to make our school function. But these are the obvious. There are more positions, relatively unrecognized, that are equally important to the well-being of our school. What significance would scholarship, sports, clubs, and student activities, the factors that make RVHS individual, have without a clean, attractive school building? The job of school custodian is hard, perhaps the hardest of all. For the past five years, our custodian has done his part to make RVHS successful. Though he has the hardest job, he complains the least. Simply because he deserves it, and as a token of our most sincere appreciation, the Class of 1970 agree by popular acclaim that it is only fitting to dedicate this, the 1970 Lasso, to MR. HARVEY PEERY.

## Guidance . . .

Mrs. Elizabeth P. Lewis  
B.S.  
Radford College  
Guidance

Mrs. Lewis sincerely believes that a part of the total educational program is assisting the student in developing himself in achieving his potential. She heads the guidance and testing services of our school. "What are you going to do with your life?" With this question she confronts the student in trying to analyze the problems and motivate him to use his time wisely and find himself. She enjoys working with the Seniors in trying to make the last year of high school one of meaning and happiness. Besides being co-sponsor of the Senior Class her next love is directing the one-act and senior play.

### Library

"Reading maketh a full man."

Reading is to the brain as exercise is to the body. The library is a room of intelligence. Through extensive outside reading our vocabularies are broadened and consequently our minds are broadened.

The library provides us to further our knowledge of other courses. Research is informative and in some cases, an essential to learning. The good conversationalists are always well read. To enable us to speak up on our views of the world, the library gives us endless mind enriching literature, from the most ancient novel to the contemporary magazine or newspaper article. We are proud of our library at Rich Valley High and of the outstanding job which the librarian has done in building it up.

## English

English provides the foundation for all studies. To master the ability to articulate and to be alert when approaching a subject is the basis for learning. In no class is there greater effort made to train the student than in English.

We learn first the basic rules for grammar and composition; then comes the ability to express ourselves, both orally and on paper. We are allowed to take a trip around the world by merely venturing into the pages of literature. English is essential while its usage in literature yields to students the unforgettable treasures of life.

Spanish, the only foreign language offered at Rich Valley, helps to break the language barrier.

## Mathematics

Mathematics makes us think! think! think! Confusing as it may be, math is a key of enlightenment. The world today has greater need of skilled mathematicians than ever before. Math works a simple problem, math constructs buildings, and finally, Math sends us to the moon.

Math ranges from the simplicity of adding, subtracting, multiplying and dividing, to the complicated trigonometric functions which appear in the form of GREEK to students.

Math definitely plays an important role in nearly all phases of life.

In this atomic era even teenagers understand the basic need for a deeper understanding of man's past and his progress. History helps us to profit from man's mistakes as well as to achieve success.

In order to become well informed citizens, students learn how our government is run and where they stand as an ordinary citizen. Students learn that in American government even the smallest voice is heard and respected.

Economics is a study of the economy of our country. It offers an interpretation of the financial trends of our day.

Geography broadens our knowledge of the world. In news media, location is a chief benefactor to making a story. Social studies provide information while it creates a well-rounded individual.

## Science

Science is "common sense at its best." It arouses unquenchable curiosity. Life itself is the result of science. Science is all around us, in the water, on land, and even inside of us. It will always function as a phenomenon to man. In spite of all the doors that research has unlocked, we will never know all the answers.

At our school we try to learn partially what makes us tick and why. More advanced courses help us to identify and in some cases, create "mystifying" unknowns.

Science is probably the most enjoyable way of finding out that we live in a world of many questions that are unanswered now—and have a 99 and  $\frac{1}{2}\%$  of a chance of staying that way. Science also helps us answer why, and why not.

## Commercial

The commercial courses build the futures of our Rich Valley business students. It is in these classes where they learn to be efficient, prompt, and comprehensive in their work.

We have rather a full list of commercial subjects offered—Typing I and II, Shorthand I and II, Office Machine Practice, Bookkeeping, General Business and Business Math.

Typing students exercise their fingers as they strive to increase their speed. Students learn that typing provides a great benefit for the future. Shorthand students learn that the slightest scribble has its special meaning. Endless dictation requires much “open-ear” for achievement. Also in bookkeeping, students learn to handle finances properly, toiling over debit and credit columns to make them balance.

Home Economics

Home Economics guides students to a better acquaintance with economical methods and newer and better ways of accomplishing the domestic tasks. It is no doubt the answer to making a girl mature into a woman with a more appreciative and enlightened outlook in the art of homemaking.

Girls in the Home Ec. classes plan for the future by mastering the skills of sewing and cooking and by studying home management. This department helps the girls today so their lives may be better tomorrow.

## Agriculture

Rich Valley is perhaps, as its name suggests, one of the greatest and most prosperous, farm areas in Southwest Virginia. For this reason our school takes pride in teaching our boys the art of farming and the use of many farm machines.

In the shop, the members learn to recognize the components of various kinds of machinery and how to create and assemble useful tools.

This department probably receives more competitive honors than any other organization (Future Farmers of America) of our school.

The boys in agriculture hold pride in the idea of being a future farmer of America. The machinery sales and service classes help the boys to get practical experience with machinery with which they will be dealing.

Music is a universal language, which everyone may understand. Music is a media through which feelings are expressed and emotions are released.

The Steer Band members choose to be a part of the organization because they enjoy music for what it is—"the poetry of the air."

## Physical Education

This department measures up well; it holds major emphasis on physical fitness.

Fair play, team work, concentrated effort, and respect for the individual are achieved through working and playing of students getting physical education.

"All work and no play makes Jack a dull boy," however, students do realize the importance of fitness while they enjoy themselves.

If the other courses are found to be strenuous, students always find relief in their best known talent—play. The physical education instructor soon makes it known that playing can mean work.

## Drivers' Education

A perfect driver is impossible, but drivers education helps to decrease the possibilities of a menace to the highway.

Learning all safety precautions, both through literature and under the wheel, students strive to become skillful drivers. Students are taught to be alert and ready to act in the event of hazards.

Drivers' Education is a promising effect against highway fatalities. When youth reaches the driving age they are required to take this special training course.

We must remember that it is not as easy to teach an old dog new tricks as it is for the new dog to have already mastered the driving skills.

**JEFF DEBORD**-First year man with desire to learn the game. Did not play much but was a "Hooker" on the speciality teams.

**JUNE CARTER**-"It's not the size of the dog in the fight that counts" Horbert held respect of all the players because he stuck it out. Because a regular on speciality teams.

**TERRY THIGPIN**-The most improved football player on team-Was a leader for younger boys and later in the year, Terry became a regular, starting at the quick guard spot.

**BRAD CARTER**-A fine football player on the 69 Steer ball club. Brad, did a good job as an offensive guard and defensive line-backer.

Ricky goes for the catch!

# Girls Basketball Team

Nanine Puckett, Debbie Smith, Tracy Trentadue, Debbie Maiden, Donna Rhea, Rita Snow, Ann Hays, Cindy DeBord, and Rachel Buchanan.

The 1969-70 Lassies did it again! They seized the district CHAMPIONSHIP FOR THE THIRD CONSECUTIVE YEAR! The Lassies overpowered rivals to rack up a 6-2 record.

Offensive leaders were Rachel Buchanan (10.0), Nanine Puckett (8.7), and Ann Hays (5.0). Heading the defense were Rita Snow and Debbie Maiden.

With only two seniors on the squad, 1970-71 should be another good year for the champion Lassies.

# The Round-Up,

The **Round-Up** is the school paper published 7 times annually by students of Rich Valley High School. It is a member of Southern Inter-scholastic Press Association and received an honor award at the SIPA Convention last year. Its purposes are to provide the students with interesting accounts of news happenings at RVHS, coverage of all sports activities, a varied amount of features and editorials, and to promote school spirit.

Mrs. Mary Frances Campbell, Advisor, Jane Pratt, Editor, and Caroline Moore, Business Manager, plan the Second ROUND-UP Issue.

Senior staff members plan make up of copy.

# Voice Of The Valley

STAFF MEMBERS Sheila Bales, Joan McElraft, Shirley Burkett, Caroline Moore, Jane Pratt, Mrs. Campbell, Cindi DeBord, and Ann Hays discuss future issues of the Round-Up.

Typists Ella Mae Evans, Rita Doane, Frances Tuggle, Jean Whitehead, and Katherine Tuggle rush to meet a deadline.

Journalism Class members, who serve as junior reporters, prepare themselves through knowledge and experience, to take over Round-Up publication next year.

## Farewell . . .

My senior year is pictured in this book. I have said what I wanted to say. My chance has come and gone. Nothing can be changed.

Deadlines came and were met; pictures were taken and copy collected as in all yearbook productions. As always, there were problems, sleepless nights, bitten nails, and frustrations.

But it is done now. All there is to do is to thank everyone—**Teachers, Advertisers, Friends, Parents**, and our **two Sponsors, Mrs. Comer, and Mrs. Lewis**—each of whom has been a part of my unforgettable school life.

We shall soon be stepping down, leaving the throne to the Seniors of '71. Now, we must say "Good-bye"!
